

Retention Areas Agreed (Updated October 2020) 2014 Model Clauses*

Licence	Operator	Change	New Model Clause Retention Area Work Plan
PEDL120	INEOS	RA	two retention areas: RA1 Ebberston South, submit a revised Field Development Plan by 30 September 2020 and commence production by 31 December 2022 ; RA2 Shale Area Acquire new seismic data by 30 September 2022, submit planning application to drill a well by 30 September 2022 and Drill a well by 30 Sept 2023
PEDL137	Horse Hill Development	RA	drill a Portland appraisal well of Horse Hill 1 by 30 September 2019, drill a Kimmeridge limestone appraisal well of Horse Hill 1 by 30 September 2020 and acquire 40 km2 of 3D seismic by 30 September 2021
PEDL145	INEOS	RA/DA	Doe Green field DA and RA to acquire new seismic data by 31 December 2020, submit planning application for drilling by 31 December 2022, and to drill by 30 June 2024
PEDL146	IGAS	RA	to submit an area plan for approval to the OGA incorporating timing for new seismic and planning application by 31 December 2019, drill a well by 31 December 2021, and submit a Field Development Plan by 30 June 2023
PEDL147	IGAS	RA	acquire new 3D seismic data by 30 June 2022 and drill a well by 30 June 2024
PEDL164	Aurora	RA	two retention areas: RA1-3D area - drill a well in RA1 to the shallower of 3,000m or 50m into the Bowland High Group by 30 September 2022. RA2-Shale Exploration Area - to acquire 30 km2 new 3D seismic data in RA2 by 30 September 2022, submit a planning application by 30 September 2023, and to drill a well in RA2 to the shallower of 3,000m or 50m into the Bowland High Group by 30 September 2024.
PEDL165	Cuadrilla	RA	three retention areas: RA1-North - to acquire gravity and/or magnetic geophysical data by 30 June 2025 and to apply for planning permission to drill a well by 30 June 2026, RA2-Central - to submit a Field Development Plan by 30 June 2026, RA3-South - acquire gravity and/or magnetic geophysical data by 30 June 2025 and to apply for planning permission to drill a well by 30 June 2026
PEDL169	IGAS/Alkane	RA/DA	complete new seismic acquisition by 30 June 2021, submit planning permission to drill a well by 30 June 2023/Markham Main Coal Mine Vent Field
PEDL181	Europa	RA	reprocess and interpret existing 2D seismic data and modelling of gravity data to define the extent of the basinal facies by 30 June 2021, submit a planning application for a well by 30 June 2023 and drill a well by 30 June 2026
PEDL183	Rathlin	RA	Two retention areas: RA1 - to complete geotechnical studies by 30 June 2021, to submit planning application for field development by 30 June 2022, and to submit a Field Development Plan by 30 June 2023; RA2 - acquire and interpret 15km2 new 3D or 50km 2D seismic data by 30 June 2022 and to submit planning application for drilling a well by 30 June 2023, and commit to drill a well by 30 June 2023
PEDL184	IGas	RA	acquire new 3D seismic data by 30 June 2022 and drill a well by 30 June 2024.

PEDL190	IGas	RA	submit an area plan for approval to the OGA incorporating timing for new seismic and planning application by 30 June 2020, drill a well by 31 December 2021 and submit a Field Development Plan by 30 June 2023
PEDL191	Egdon	RA	submit planning application for a well by 31 December 2021 and drill a well by 30 June 2023
PEDL193	INEOS	RA	acquire new seismic data by 30 June 2020, submit planning application to drill a well by 30 June 2022, and drill, hydraulically fracture and flow test a well by 30 June 2024
PEDL200	IGas	RA	drill one well by 31 December 2018, acquire new seismic data by 31 December 2019 and drill a horizontal well by June 2021
PEDL201	Egdon	RA	submit a planning application for a well by 30 June 2022 and drill a well by 30 June 2024
PEDL202	Egdon/Infinis	RA/DA	submit a planning application for a well by 30 June 2021 and drill a well by 30 June 2023/Calverton Coal Mine Vent Field
PEDL209	Egdon	RA	submit planning application for a well by 31 December 2021 and drill a well by 30 June 2023
PEDL210	IGas	RA	submit an area plan for approval to the OGA incorporating timing for new seismic and planning application by 31 December 2019 and drill a well by 30 June 2022
PEDL234	UKOG	RA	drill and test an exploration well through the Kimmeridge Limestones on trend with the Godley Bridge 1 Portland gas discovery by 31 December 2021, and drill and test a further exploration well through the Kimmeridge Limestones by 31 December 2022, and drill and test an appraisal well or sidetrack by 31 December 2023, and acquire and process 50 km of 2D seismic by 31 December 2024, and submit Field Development Plan, by 31 December 2024
PEDL244	Cuadrilla	RA	complete an EWT by 30 June 2021 and drill one well by 30 June 2024
PEDL246	Horse Hill Development	RA	acquire 25 km of new 2D seismic by 30 June 2022, acquire 15 km of UKOGL seismic by 30 June 2022 and drill a well to test the Kimmeridge limestones by 30 June 2023
PL213	Alkane	RA	submit a planning application for a well by 30 June 2021, drill a well by 30 June 2022, submit Field Development Plan by 30 September 2022 and to plug and abandon the Calow 2 well as part of the PL213 decommissioning programme

*New Model Clauses were laid in 2014 (see <http://www.legislation.gov.uk/uksi/2014/1686/contents/made>)
